57th Annual Appalachian Underground Corrosion Short Course

***A Three-Day Short Course Focusing on the Causes and Prevention
of Corrosion Specifically Related to the Water and Wastewater
Industry***

West Virginia University

Morgantown, West Virginia

May 15-17, 2012

More Than 1,000 Corrosion Industry Professionals Typically Attend

Water and Wastewater Operator Continuing Education Credits In the following States:

State of Ohio- 11 Hours

State of West Virginia- 11 CEH's

State of Virginia- This training program meets the continuing education requirements of the Virginia Board for Waterworks and Wastewater Works Operators and Onsite Sewer System Professionals.

Economical and Affordable:

Advanced Registration only \$125.00

FREE Shuttle Bus around Campus

Lodging for as little as \$29.57 pp/do per night

Check www.aucsc.com for up to date costs, available options and restrictions

AUCSC Water and Wastewater Program

This course addresses the identification and mitigation of corrosion on all water and waste water infrastructure. It is intended for maintenance, engineering and management personnel. Course topics include corrosion control economics, corrosion mechanisms, coatings, field corrosion and integrity testing, methods of mitigation, and corrosion issues related to specific piping materials (steel, ductile iron,) used in the water and wastewater industries.

Course Titles

Complete Course Descriptions Available at www.aucsc.com

WW-1 – UNDERSTANDING THE BASICS OF CORROSION AND CORROSION CONTROL

WW-2 – COATINGS 101 – BASIC UNDERSTANDING OF COATINGS

WW-3 -- ECONOMICS OF CATHODIC PROTECTION

WW-4 – CORROSION CONTROL OF DUCTILE IRON PIPE

WW-5 – EXTENDING THE LIFE OF EXISTING WATER MAINS

WW-6 –CORROSION CONTROL MONITORING

WW-7 – CORROSION FAILURES IN THE WATER/ WASTE WATER INDUSTRY

WW-8 – CORROSION FAILURES IN THE WATER/ WASTE WATER INDUSTRY - CONTINUED

**WW-9 -- CORROSION CONTROL FOR WATER STORAGE
AND TREATMENT FACILITIES**

WW-10– INSTALLING CORROSION CONTROL IN A WATER STORAGE TANK

WW-11- PREVENTING CORROSION OF STEEL WATER PIPE

WW-12 -- INSTRUMENTATION & MEASUREMENT

OTHER AUCSC 2012 FEATURES

- Four other corrosion courses to expand your knowledge base including fundamentals, basic, intermediate, and advanced. Classes are taught by industry experts providing attendees with technical information including: causes of corrosion, corrosion survey techniques, cathodic protection, external pipe coatings, and other methods of corrosion control.
- Hands on, outdoor workshops giving attendees practical experience in taking corrosion measurements on underground structures.
- Exhibit area featuring the latest products and services for corrosion protection, instrumentation, materials, and services.
- 1.6 CEU (continuing education units) available upon request.
- National Association of Corrosion Engineers (NACE) Certification information available.
